## ORIENTED STRAND BOARD (OSB)

KTC personnel participated in the Engineering of their \$52 million Green-field OSB Production Plant in 1989, located in Commerce, Georgia USA.

The work included Project Planning and Management, Preliminary Engineering, Scheduling, Specifications, RFQ's, COT's and Capital Cost Budgeting.

During the execution phase of the project KTC personnel provided complete Process, Mechanical, Civil, Electrical, Structural Engineering and Site Assistance.

The contract included Project and Construction Management, and the Design, Supply and Installation of all OSB equipment and Support Steel.
