### ORIENTED STRAND BOARD (OSB)

KTC personnel participated in the Engineering of their \$245 million Green-field OSB Production Plant in 2007, located in Industrial Park located in Clarke County, near Thomasville, Ala USA.

The work included Project Planning and Management, Preliminary Engineering, Scheduling, Specifications, RFQ's, COT's and Capital Cost Budgeting.

During the execution phase of the project KTC personnel provided complete Process, Mechanical, Civil, Electrical, Structural Engineering and Site Assistance.
