ORIENTED STRAND BOARD (OSB)

KTC personnel participated in the Engineering of their \$70 million Green-field OSB Production Plant in 1996, located in Arcadia, Louisiana USA.

The work included Project Planning and Management, Preliminary Engineering, Scheduling, Specifications, RFQ's, COT's and Capital Cost Budgeting.

During the execution phase of the project KTC personnel provided complete Process, Mechanical, Civil, Electrical and Structural Engineering.

The contract included the complete Design and Supply of all OSB equipment.
